You Rule the AIR • We Rule the ROAD!

Commonwealth Worldwide has provided unparalleled, premium transportation for more than 40 years to top General Aviation clients across the globe. You can rely on us to provide seamless and consistent service from the moment you contact us. Here are just some of the reasons we are uncommon in the aviation industry:

• **General Aviation Desk** – expert professionals who know the unique demands of private air travel.

• **Flight Tracking** – all flights are continuously monitored; however, if an aircraft is not tracking, our Aviation Desk will contact you to assist in determining the ETA.

• **Safety & Security** – we take our Duty of Care seriously and have an unmatched safety record in the industry due to our utilization of DRIVECAMs™, and training programs in many markets, along with strict adherence to all regulatory requirements and testing. Our Executive Chauffeurs are specially-trained to know the intricacies of general aviation facilities, ensuring smooth customer service.

• **Status Updates** – real time alerts sent directly to the booking agent when:

✓Vehicle is enroute
✓Chauffeur is on-site
✓Passenger is in vehicle

• **24 Hour Reservation Reminder** – we notify the passenger and/or the booking agent through our CWW24 system, reducing client charges for no-shows and late pick-ups.

• **Enhanced Chauffeur Direct** – sends email and/or text messages with the Executive Chauffeur's name and cell phone number to passengers and/or travel coordinators 25-30 minutes prior to the scheduled pickup time. Wherever possible, we provide a live GPS tracking link of the vehicle and the chauffeur's photo.

• **Insurance** – Commonwealth Worldwide maintains a $10 million dollar umbrella policy.

As a leader in the industry, you can count on the pros at Commonwealth Worldwide for uncommon consistency every time.
