

# UnCommon consistency

Commonwealth Worldwide is a proven leader in the investment world, recognized for superior execution because we understand the demanding and critical nature of the business. Our reputation in the financial sector allows us to maintain preferred status with many of the largest, most recognizable investment banks and capital venture firms on Wall Street and beyond. To accommodate the most intricate, multi-city itineraries, we maintain a dedicated Road Show/Investment Tour Desk staffed by highly trained managers, agents and Executive Chauffeurs.

- **Dedicated Road Show Desk and Phone Number:** Our Road Show specialists are trained to execute rigorous, detailed, multi-city, full-day (sometimes multi-day/international) schedules. Our direct telephone line puts you in contact with us immediately, with your phone call answered by a live person, 24/7.

- **Specially-Trained Road Show Chauffeurs:** Our Road Show Executive Chauffeurs are explicitly trained and vetted to accommodate the specific needs intrinsic to the financial sector. We deploy an impeccable fleet of late model Sedans, SUVs and Vans, all equipped with the latest technology to facilitate on-the-fly route adjustments as necessary. We have an unmatched safety record in the industry due to our utilization of DRIVECAMs™, and training programs in many markets, along with strict adherence to all regulatory requirements and testing. We are proud to have been recognized on numerous occasions for exemplary safety records throughout our network.

- **Detailed Pre-Trip Information:** The evening prior to your reservation, we provide you with your Executive Chauffeur's name and direct cell phone number. This information is emailed to you for all cities you are working the next day.

- **CWW Desktop "RezTracker":** Our new desktop "RezTracker" portal is designed specifically to make it easier for Road Show Coordinators and Travel Professionals to monitor their ongoing ground transportation activities from the comfort of their own desk.

- **New "CWW Mobile" App:** Passengers can easily access their trip information on their smartphone, including GPS tracking of their vehicle and one-touch communication with their Executive Chauffeur.

- **Expedited Post-Trip Billing:** We provide accurate billing in a timely matter to simplify your reconciliation and accounting process. Our invoices and reports are customized to your specifications, providing you with the information you need, when you need it.

As a leader in the industry, you can count on the experienced professionals at Commonwealth Worldwide for uncommon consistency every time.
