

Anything But Common

UnCommon clarity

In 1982, a young man named Dawson Rutter bought a single limousine with a clear vision; to provide a level of personalized service that would keep customers coming back again and again. To demonstrate attention to detail and consistency of delivery that would foster a sterling reputation in the community was vital to his livelihood.

Today, by virtue of those core tenets, Dawson's company, Commonwealth Worldwide Executive Transportation, has access to thousands of luxury vehicles in 85 countries across the globe.

UnCommon customer service

Our relentless desire to ensure customer satisfaction has enabled us to excel in highly demanding business sectors;

**FINANCIAL INSTITUTIONS/ROADSHOWS
GENERAL/PRIVATE AVIATION
LUXURY CORPORATE TRAVEL
ENTERTAINMENT/PRODUCTION TOURS
MEETINGS & SPECIAL EVENTS**

UnCommon consistency

While, occasionally, there are factors beyond any human control, we pride ourselves in establishing – and maintaining – a reliability rate of more than 99.5%. We excel in adapting to last-minute changes, whether they be client-driven or circumstantial response.

Our career Chauffeurs are empowered to take whatever actions are necessary to delight their passenger. They treat every assignment as if it's the only job they're going to have all day.

UnCommon commitment

We continuously look forward. New technology. New safety programs. New investments in our people, fleet, procedures and systems. We over-prepare. Commonwealth's level of readiness is such that we are always able to handle 105% of our busiest day. We always want to keep our promises, so you can keep yours.

UnCommon communication

Our mission to exceed our customer's expectations has led us to develop technological advances such as **CWW Mobile** – our smartphone app designed for our passengers to track their vehicle in real time, call or text their driver with the touch of a button, and view their entire itinerary. Our **CWW "RezTracker"** desktop portal enables ground transportation coordinators and travel professionals to view their passenger's location and trip status in real time, including GPS maps, traffic, weather, flight tracking and more.

UnCommon confidence

Put us to the test and find out for yourself why we are indeed "Anything But Common!"
